

Suggested Maintenance Schedule

Want to keep your hair in excellent condition? We recommend a regular maintenance schedule. Regularly having your hair trimmed will promote healthy hair growth. Keeping a regular maintenance schedule will also keep your hair color vibrant (and get rid of those pesky gray roots) in the process! And it all starts with your shampoo & conditioner using our amazing array of products specifically targeted for your hair type & color.

If you are running low on your favorite product, send me a message via the Wix app. I can let you know if the product is in stock and have it ready for you when you book your next appointment.
